

CAREER CAFÉ

Web Development Track

TheCareerCafe.in
Giving wings to your dreams...

Milestone: HTML (Part 1)

- Basics of HTML
- Working with images and link in HTML
- Lists in HTML
- Table in HTML

Task:

- Being a head accountant you need to create a School Registration web page. Make a table mentioning the registrations along with their details. (Use proper heading for each page)

Milestone: HTML (Part 2)

- Nested Elements and font-styling
- HTML forms
- Iframes/video embedding in HTML

Understanding meta and doctype tags

Tasks:

- Continuing with your job of head accountant, create a **School Registration** form. Mention all the details you require from the parents about the child, use different input elements so that parents can fill it easily.
- Being a hard-core music fan, create a web page for your **favorite music artist**. Include his/her videos in the page, create iframes linking to his social media handles and include everything you like about him/her.
